

PICK 3
IOWA LOTTERY AUTHORITY GAME SPECIFIC RULES

The following are the game specific rules for the Iowa Lottery computerized game called PICK 3.

These rules correspond to the Computerized Lottery Games General Rules in 531 Iowa Administrative Code, Chapter 20.

Method of play. Pick 3 is an on-line game where a player picks three (3) numbers from a matrix of 10 numbers (0 through 9) for each play. The cost will be \$0.50. Players may choose to wager \$0.50, \$1, \$2, \$3, \$4, or \$5. The player wins by matching the 3 numbers drawn at each drawing. The method of play for customer selected numbers will be by playslip or by manual entry by a clerk. On the front of a playslip will be three (3) matrices of 10 for each of four (4) plays (four panels). There will be an Easy Pick box and a Void box for each panel. The playslip will have multi-draw boxes for 2, 3, 4, 5, 6, and 7 draws. The playslip will also have boxes to indicate either a \$0.50 play or a \$1 play, as well as boxes to indicate the type of play; straight (three matching numbers drawn in the exact order picked by the player), box (players three numbers match the numbers drawn in any order), or straight/box (a combination where the player wins the box prize if the numbers picked match those drawn in any order, and the player wins both prizes if the numbers picked match those drawn in exact order), Front Pair (player matches the first two digits in the exact order) or Back Pair (player matches the last two digits in the exact order). The back of the playslip will have playing instructions, prize structure and general lottery rules.

The customer may also communicate their three (3) numbers or request a computer generated easy pick, how much they wish to wager (\$0.50 to \$5), their play option (straight, box, or straight/box, front pair or back pair), and the number and time (day/evening) of draws they want to participate in to the clerk for manual entry.

Cancellation by a player. A ticket purchased from a retailer may be canceled by returning the ticket to the selling retailer. The ticket must be returned to the selling retailer on the same day it was purchased. The ticket must be canceled prior to the time for that respective drawing. In the event that a ticket is canceled, the player will be entitled to a refund equal to the purchase price of the ticket.

Prizes and odds. The prizes and odds are determined by the amount of money the player wagers and the type of play selected. The play amounts and payouts are:
